

## Materials Disposition Team

Oak Ridge, Tennessee

EI Review & Company, Inc. has been awarded a five year Basic Ordering Agreement (BOA) with the Department of Energy (DOE) for materials disposition. The scope includes divesting DOE and its prime contractors of radioactive or non-radioactive contaminated material such as scrap metal, equipment, vehicles and the demolition of structures.

The steps to implementation are:

- Identify the material for disposition
- Contact the DOE BOA administrator
- Develop a Task Order (Scope of Work)
- Contact EI Review & Company (anytime during the process)

The advantages to you include:

- Existing contractual mechanism
- Task Orders performed on-site and off-site
- Your scope of work
- Flexibility
- Support of pollution prevention programs
- No cost to you!
